***Certificates will be awarded
at the Graduation ceremony
in CAHOCON 2027 at Mumbai.***

Testimonials

Dr. Sonali Tiwari

Assistant Quality Manager, Medipulse Hospital, Jodhpur

Attending the CAHO 18th Advanced CPQIH Residential Training Program at Sunday Hotel, Jaipur, was a truly enriching experience. The four-day program offered an excellent blend of conceptual learning and practical application, with sessions focusing on advanced implementation of NABH 6th Edition Standards. The sessions by Dr. Suneel C. Mundkur, Dr. Lallu Joseph and Dr. Prathibha Periera were extremely insightful, covering topics like leadership, patient safety, FMS, MOM, IMS, and QIP execution. The interactive format, mock audits, and real-time exercises made the learning deeply engaging and applicable to hospital settings.

Our team actively participated in all modules and was honoured to secure:

- 🏆 1st Position in Quality Improvement Project Presentation (RCA on hand-carried samples using Pareto & PDCA analysis)
- 🏆 1st Position in Mad-Ads Activity

The experience not only strengthened our technical understanding of quality and patient safety but also enhanced leadership, teamwork, and analytical capabilities. The field audit at Rajasthan Hospital, Jaipur, and the viva session further reinforced practical understanding of quality implementation.

I am grateful to CAHO for organizing such a well-structured and impactful training that inspires professionals to lead change in healthcare quality and safety. The program has undoubtedly elevated our institutional capability and personal commitment toward continuous improvement.

Ms Simanti Sengupta

Senior Assistant Manager-Quality Assurance, Desun Hospital

Participating in the Advance CPQIH residential program in Jaipur in October 2025 was a deeply enriching and transformative milestone in my professional journey. The immersive learning environment went far beyond classrooms, fostering reflective thinking, meaningful dialogue, and a renewed sense of purpose in healthcare quality. Each session seamlessly blended evidence-based frameworks with real-world applicability, strengthening my ability to translate standards into sustainable practice. This residential form of training created a rare space for uninterrupted learning, collaboration, and professional bonding with like-minded quality leaders from across the country. Jaipur, with its cultural depth and calm grandeur, provided the perfect backdrop for introspection and growth. The program sharpened my perspective on patient safety, risk management, and leadership accountability. More importantly, it reaffirmed my belief that quality is not documentation-driven but value-driven. I return from this experience not just informed, but inspired—to lead with clarity, conscience, and conviction.

Mr Dharmveer Bhalla

Nursing Superintendent, Clinical and Patient Safety Officer

I had the opportunity to attend the CAHO CPQIH Advanced Course held at The La Hotel, Delhi. As part of the program, we also appeared for the examination and conducted a departmental audit at Sehgal Neo Hospital, New Delhi. A heartfelt thanks to CAHO for organizing such a high-quality and enriching program. This course has significantly contributed to my understanding and commitment to healthcare quality and patient safety. It has undoubtedly enhanced my professional journey in the field of quality improvement.

Testimonials

Special thanks to Dr. Vijay Agrawal Sir and Dr. Lallu Ma'am for organizing and facilitating this impactful program. I look forward to more such initiatives from CAHO that continue to empower healthcare professionals to drive excellence in their organizations.

Mr Anupam Das

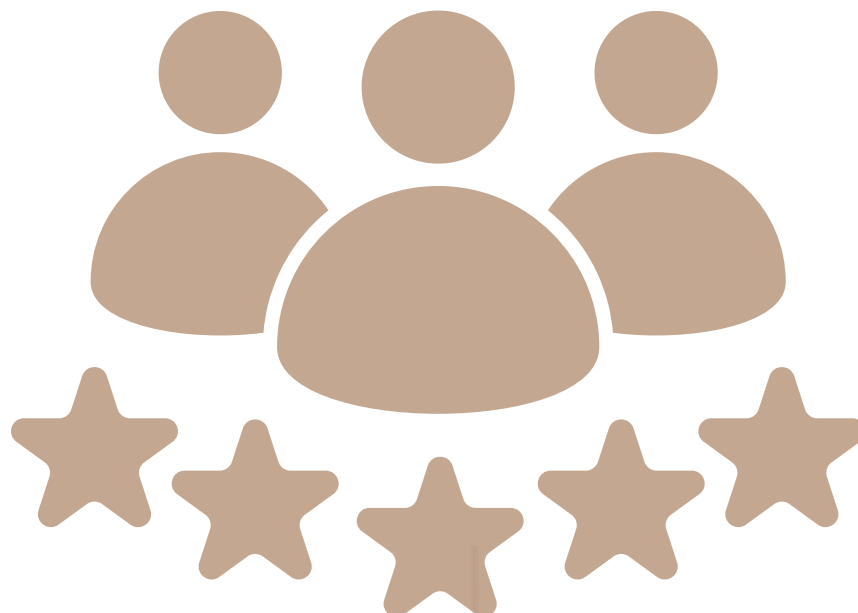

Chief Manager - Quality Assurance, Medical Administration and Project Officer (New Projects)
Peerless Hospitex Hospital and Research Center Limited, Kolkata

I would like to congratulate CAHO for designing such a wonderful course. The course material was comprehensive, covering key aspects of quality healthcare management.

It has helped me gain a deeper understanding of:

1. Quality frameworks and standards in healthcare
2. Patient safety and risk management
3. Performance improvement and measurement
4. Leadership and change management

I particularly appreciated the interactive sessions, case studies, and group discussions, which facilitated learning and sharing. It is essential for healthcare administrators, quality managers, and professionals seeking to improve patient care and organizational performance.
